ABOUT THIS COURSE

SAP Workshop provides professional services for all kinds of team workshops - from user configuration, team workshop to strategy development and SAP business process. Passionate SAP professionals from various business areas with in depth facilitation skills offer these services. In addition the service multiplies facilitation skills across the organization. It also focus for a fresh user to use SAP system from A>Z

FOCUS & BENEFITS

- Will understand their day to day job functions better
- Will understand SAP system configuration better compared to a generic training which they have attended
- Need not attend a long duration of training for each module/area
- Can attend the bundle workshop
- Need not ask their superior or support for any assistance until and unless really needed
- Users will be well-verse in their system hence this will save time and cost for the management

TARGET AUDIENCE

- Experienced User
- Super User
- New User
- Certified Junior Consultant with Fresh Experience
- Consultants who wants to learn as a process in an organization
- C-Levels to understand the day to day process of their user in their organization
